## **windream Interface Once Again Certified by SAP**

### **windream's competence in the SAP sector continuously confirmed since 1994**

**Bochum. – SAP has once again certified the integrated software solution for the SAP system offered by the software manufacturer windream GmbH from Bochum. After mastering the SAP test scenarios BC-AL 7.40 and S/4-BC-AL 7.40, windream now received the official certifications “BC-AL Interface Certification” (for SAP NetWeaver) and “S/4-BC-AL Interface Certification” (for SAP S/4 HANA).**

The interface developed by windream GmbH connects the windream ECM system with specific SAP applications from the areas of electronic archiving and enterprise content management. The automated and compliant storage of invoice documents from an SAP workflow is a typical example of this sector.

#### **Certificates are now also valid for version 7 of the windream interface**

SAP recently certified the products of windream GmbH. Certification of windream products for SAP applications has been continuously valid since 1994 and also applied to previous versions of the windream SAP interface. The certificates newly issued by SAP also refer to the current version 7.0 of the windream interface.

The windream integration into the SAP system supports all protocol versions – 0045, 0046 and 0047 – of the SAP Archive Link interface. Among the windream

functions explicitly certified by SAP are the HTTP Content Server and the OLE Frontend and Barcode BAPI functions.

### **windream GmbH offers comprehensive ECM portfolio for SAP**

windream GmbH is known for its high competence when it comes to the integration of ECM solutions into SAP applications. For many years, the company has been offering a comprehensive portfolio for this sector which includes the products “windream ArcLink”, “windream DirectLink” and “windream Command for SAP”. windream ArcLink functions as a connection between the SAP ArchiveLink interface and the windream ECM system, windream DirectLink is designed specifically to allow the post-indexing of documents which have been linked with SAP application documents. windream Command for SAP is the command center which allows users to configure and control the interaction between the windream ECM system and the SAP applications.

### **Extensive know-how confirmed**

The products offered by windream for SAP users offer an excellent price-performance ratio and even higher user convenience which are two typical characteristics of windream products. By being SAP-certified once again, the SAP Competence team of windream GmbH also is confirmed to possess extensive know-how in the field of windream ECM integrations into SAP products.

**About windream GmbH**

windream GmbH develops and distributes the windream ECM-system. windream GmbH currently employs 85 people and supports a network of about 250 distribution, integration and cooperation partners throughout Europe, the USA, South America, Africa as well as Australia and New Zealand. International enterprises such as Babcock Noell, Deutz AG, the DFS Deutsche Flugsicherung (German Air Traffic Control), Swisscom, Koenig & Bauer and Deutsche BKK are included among the company's customers.

**About the windream Enterprise Content Management System**

windream, protected by patent since 2003, is counted amongst the leading solutions for acquiring, administering and archiving electronic documents in the office sector as well as in the field of SAP-integrated applications. windream is the first ECM-system worldwide to be integrated into an operating system.

The Standard Edition is generally used by smaller and medium-sized companies and the Business Edition by large enterprises. A whole variety of integrations into third-party products extend the windream product portfolio. Integrations into ERP-, resource management, financial accounting, knowledge management, groupware and imaging / data capturing solutions as well as integrations into different branch-specific software systems are included among the product range. windream has achieved a first-class result as a participant in the BARC studies "Enterprise Content Management" in all test disciplines.
