

Press release of December 16, 2020

Digitization in construction

windream at the BAU ONLINE 2021

Bochum. windream GmbH will present customized solutions for digital document and process management in the construction industry at BAU ONLINE from January 13 to 15, 2021. The focus will be on information handling and file management on any end device. Furthermore, classic DMS topics such as electronic availability of all data, process automation, legally compliant archiving and e-mail management are part of windream GmbH's exhibition program.

In the course of 15 live presentations and numerous one-to-one talks, windream will show how business processes can be significantly simplified and accelerated with the ECM-system of the same name. For this purpose, the software supports every construction project phase - from planning to implementation. All documents are clearly arranged in a digital construction file management, so that users can access all relevant information and processes, both from the office and on the road. Furthermore, windream supports automated process handling and controls even complex business processes, which massively accelerates the workflows.

Further information about BAU ONLINE and the exhibition offer of windream GmbH can be found [here](#). To the free registration:

About windream GmbH

For 20 years, windream GmbH has been one of the top companies in the development and marketing of business software products for electronic archiving, digital document management and business process control or workflow automation. Especially for its ECM-system windream of the same name, the company is known nationally and internationally. More than 100 employees and a worldwide network of about 250 sales, integration and cooperation partners take care of more than 2,600 customers with more than 260,000 workstations.

About the windream Enterprise Content Management System

With the patented integration into the Windows operating system, the foundation for today's windream ECM-system was laid more than 20 years ago. With this unique approach, windream sets new standards in terms of intuitive handling, inspiring usability and user acceptance also in the current version 7. All possible solutions, whether e-file, e-mail management, invoice receipt, incoming mail, scanning, archiving, search and find, business process automation, workflow and mobile working are modularly designed. windream is equally flexible when it comes to integrations into third-party products, e.g. ERP, merchandise management and financial accounting solutions. Thus, companies can configure the windream ECM-system like a construction kit exactly according to their specific requirements. With the Dynamic Workspace, the latest windream version 7 successfully bridges the gap towards mobility and cross-platform availability under an interface which can be designed by the user himself. No matter if in the office with a PC or a laptop, a Smartphone or a tablet: Any time, any place, any device. windream Dynamic Workspace is included in the windream Business Edition and does not need to be licensed as an additional module. windream - just use it!
