

Press release of March 09, 2021

Microsoft certifies windream GmbH as Gold Partner again

Bochum. Within the scope of its partner program, Microsoft Corporation has again certified windream GmbH as "Gold Competency Partner". The US-American IT-company thus once again confirms the close, long-term partnership of both companies.

Due to its deep integration into the Microsoft Windows operating system, the windream ECM-system ensures an efficient administration of data and documents. Furthermore, windream GmbH offers further established software solutions which are based on Microsoft products. These include the integration into e-mail archiving solutions like Outlook and Exchange Server as well as specific windream ECM-integrations into Microsoft's ERP-systems. These solutions have already been used by numerous windream customers for years. Additionally, an integration into MS Teams has recently been introduced, which reliably protects users of the leading collaboration software against data loss.

Microsoft expertise in two important partner sectors

The current Microsoft certification as a Gold Partner relates to the competence areas "Application Development" and "Application Integration".

About windream GmbH

For 20 years, windream GmbH has been one of the top companies in the development and marketing of business software products for electronic archiving, digital document management and business process control or workflow automation. Especially for its ECM-system windream of the same name, the company is known nationally and internationally. More than 100 employees and a worldwide network of about 250 sales, integration and cooperation partners take care of more than 2,600 customers with more than 260,000 workstations.

About the windream Enterprise Content Management System

With the patented integration into the Windows operating system, the foundation for today's windream ECM-system was laid more than 20 years ago. With this unique approach, windream sets new standards in terms of intuitive handling, inspiring usability and user acceptance also in the current version 7. All possible solutions, whether e-file, e-mail management, invoice receipt, incoming mail, scanning, archiving, search and find, business process automation, workflow and mobile working are modularly designed. windream is equally flexible when it comes to integrations into third-party products, e.g. ERP, merchandise management and financial accounting solutions. Thus, companies can configure the windream ECM-system like a construction kit exactly according to their specific requirements. With the Dynamic Workspace, the latest windream version 7 successfully bridges the gap towards mobility and cross-platform availability under an interface which can be designed by the user himself. No matter if in the office with a PC or a laptop, a Smartphone or a tablet: Any time, any place, any device. windream Dynamic Workspace is included in the windream Business Edition and does not need to be licensed as an additional module. windream - just use it!
